Module 11 - Student Level Goal Monitoring Part 3A - Analyze

By Nathan Anderson, Amy Ova, Wendy Oliver, and Derrick Greer

This material is based upon work supported by the National Center for Education Statistics, Institute of Education Sciences, U.S. Department of Education, through Grant R372A150042 to North Dakota Department of Public Instruction. The opinions expressed are those of the authors and do not represent the views of the National Center, Institute, or the U.S. Department of Education.

Learning Goals

- Analyze data to identify a student's middle-of-period performance value
 - Analyze data to compare a student's middle-of-period actual and expected values
 - Analyze data to compare a student's middle-of-period actual and end-of-year goal values
 - Analyze data to identify a student's highest and lowest areas of performance
 - Analyze data to compare the change in values relevant to the action plan focus area
- Identify limitations and implications of analysis findings

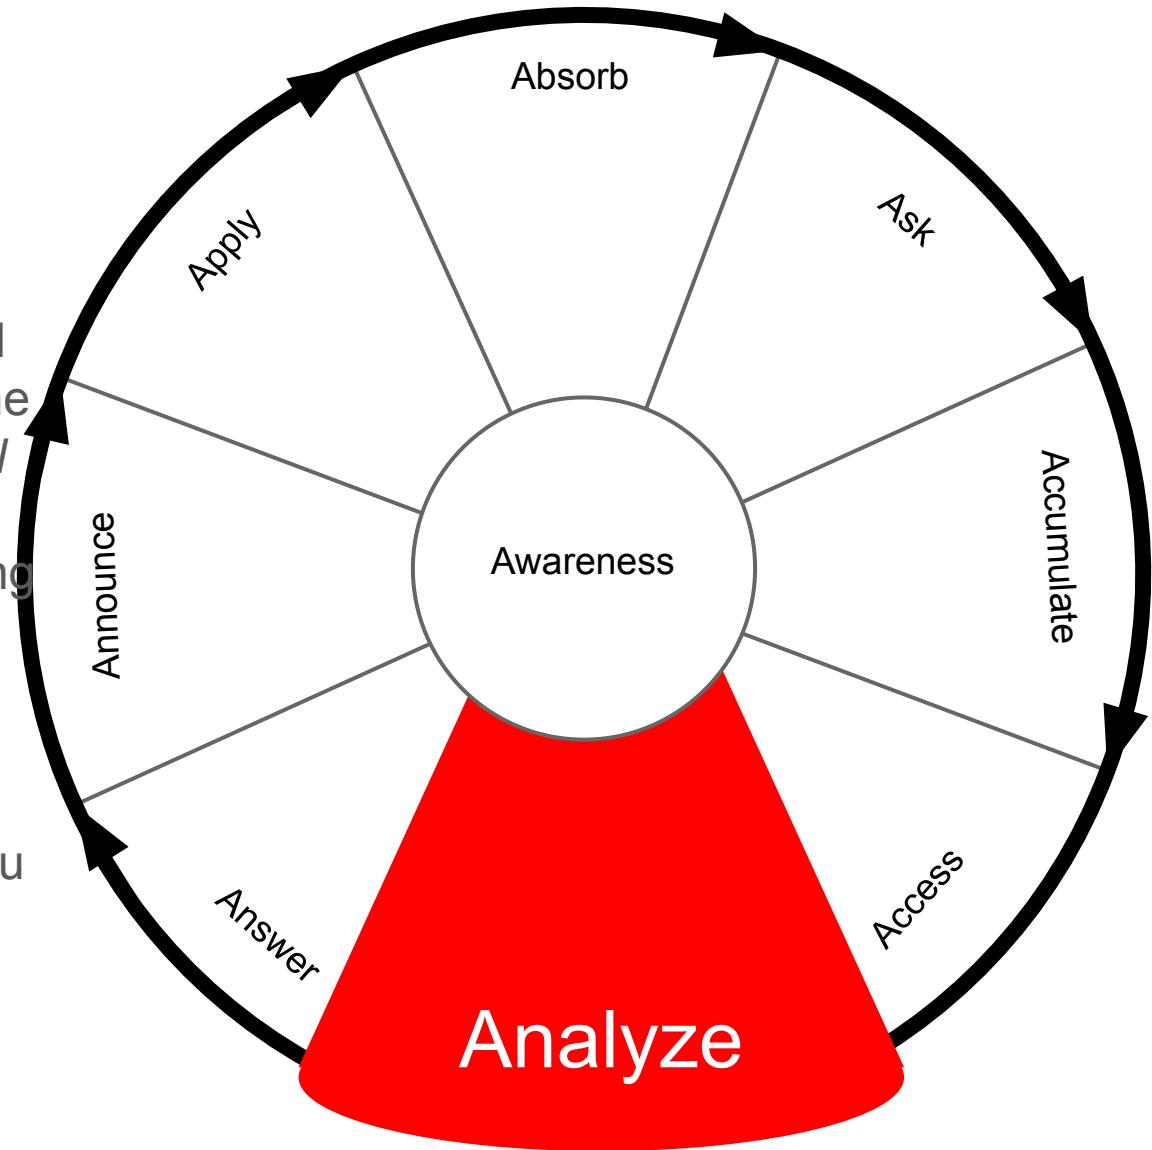

SLDS Data Use Standards

- K.3.B Data Limitations: Knows that data have limitations and that these limitations affect the interpretation and usefulness of data
- S.4.C Aligned Analysis: Using appropriate technologies, conducts ANALYSIS suitable for the type of data collected, the VARIABLES identified, and the questions or hypotheses posed
- S.5.C Patterns: Identifies patterns, TRENDS, and gaps in data and suggests reasons for their occurrence
- S.7.A Strategies: Identifies appropriate strategies grounded in evidence to address the needs and goals identified during data ANALYSIS

Introduction

Ryan:

Now that you have pulled your needed data from the SLDS and your *individual student* Goal Setting, Monitoring, and Evaluating Organizer, it's time to enter the Analyze stage where you will conduct analysis of the data you accessed. Make sure you have out your flyers in case you need to reference our district's protocols for [goal setting](#) and [monitoring](#) or be reminded of key vocabulary and concepts.

Introduction

Ryan:

Make sure you have your Goal Setting, Monitoring, and Evaluating Organizer ready as we work through the Analyze, Answer, Announce, and Apply stages. The organizer already includes quite a bit of information, which you added during the goal setting process at the beginning of the year. Now, during the goal monitoring process, we'll be adding middle-of-year values and action plan details.

Now it's time to compare Stephanie's middle-of-year actual scale score with her middle-of-year expected scale score.

- Step 1: Identify the actual middle-of-year scale score, 216
- Step 2: Identify the expected middle-of-year scale score, 215
- Step 3: Subtract the expected score from the actual score ($216 - 215 = 1$)

Stephanie's actual middle-of-year scale score is one point above her expected scale score.
